As a new brand of chocolate in Berlin, Höflich appeals equally to chocolate lovers and tourists. Created here in the city, Höflich can be found in selected outlets with shelves bursting with delicious, elegantly packed chocolate as well as in locations popular with tourists. But Höflich is more than just chocolate. With its mix of tempting ingredients, fine chocolate and a 'made in Berlin' pedigree, Höflich chocolates can be offered across a wide range of channels – from souvenir and specialist chocolate shops across the city to gifts for customers and clients in the hotel industry. The blank lids on the tins of chocolates offer the ideal space for a customised label or company logo. Höflich chocolates are also available in a folded box, perfect for a hotel minibar.

For visitBerlin partners, Höflich is offering a special price on the collector's tin.

The single tin's RRP is €7.95, but on orders of over 500 tins, visitBerlin partners enjoy a special rate (details from Sascha Merdanovic - see below). For an extra charge, you can also have a customised label attached to the lids. You can either

design the label in-house or through Höflich's advertising agency. Höflich waives the costs for attaching the labels.
