Leisure Tourism and Information

Our products support our activities to promote Berlin

visitBerlin supports Berlin's visitors in preparing for their trip and during their stay in Germany's capital city. To provide this support, we deliver our own sales activities in various areas. We develop and sell products for the tourist trade, reinvesting the revenues generated into our marketing campaigns to promote Berlin.

Our expertise as Berlin specialists flows into our choice of products, ensuring they are ideally designed both to benefit Berlin visitors and to promote the city. Here, our sightseeing passes play a key role. Visitors can enjoy mobility across the city and great savings with the **Berlin WelcomeCard - Europe's best-loved city pass** - and the **Berlin CityTourCard**. We sell all our products ourselves through a range of distribution channels.
